anything!

350ml e CONCENTRATE - Makes 10L of Grazers G2 ready to use

Grazers G2 Concentrate

Effective against foliar damage from
slugs and snails

Contains Calcium and other ingredients: calcium chloride solution - 10% CaO, 7.2% w/w calcium.

Dilution: Simply add 2 caps full (30ml) of G2 concentrate into the G2 trigger sprayer and top up with 750ml water. **OR** 35ml G2 concentrate per 1 litre of water. **Note:** bottle top holds 15ml when full (can be used as a measure).

Instructions: Shake well. Spray dry foliage until just wet. Allow foliage to dry before applying other sprays. Do not spray tender plants straight out of the greenhouse **Note:** Seedlings under protection are very tender and prone to scorch from using any spray product. Harden off young plants by bringing them outside gradually over a week or more before spraying.

Frequency: Interval 7-10 days. It is safe to spray more frequently, if for example damage persists, prolonged rainfall or if plants are watered overhead.

Harvest Interval: 1 week due to slight risk of taint to edible plants.

Allow leaf to dry before applying other products.

Storage: Will keep for 2 years when stored in cool, dark conditions.

Grazers is very safe to use, benefits the plant and does not harm the slugs and snails so encouraging natural predators such as hedgehogs, frogs and beetles back into your garden.

GRAZERS G2 slug and snail concentrate

Warning: Causes serious eye irritation

If medical advice is needed, have product container or label to hand.

Keep out of the reach of children.

Wear protective gloves/eye protection.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

DO NOT MIX WITH ANY OTHER MATERIAL

**This bottle is made
from easily recyclable
HDPE plastic.**
